EST Manager	
Other	

Situation Description

The probability of an aircraft falling on or near a school building is extremely remote. But in case of an emergency involving an aircraft, the following should be accomplished to maintain safety and isolate the hazards.

Procedures

Immediate response—

- Aircraft crash into building:
 - Notify principal.
 - Move students away from the immediate vicinity of the crash.
 - Call 911.
 - Implement the Building Evacuation Procedure.
 - Students and staff should assemble in areas far from the crash scene in locations uphill and upwind of the crash.
 - Wait for instructions. You will be advised when it is safe to reenter the building.
- Aircraft crash near building (no damage to building):
 - Notify principal.
 - Move students away from the immediate vicinity of the crash.
 - Call 911.
 - All students and staff should remain in the building.
 - Any students or staff outside the building should move into the building.
 - No evacuation should occur unless subsequent explosions or fire endanger the building.

Followup response—

- Notify the EST.
- Notify maintenance.
- Complete the After Action Report on the Web-Based Application (DC Emergency and Safety Alliance Web site) and submit to the Interagency Team.
